16 colorful pages ENGAGING AND EDUCATIONAL!

We have used On Track for six years and give it to all of the 8th graders in our county as they visit our college each winter. The teachers and parents always tell me that the information in the magazine for their children has been most useful in helping the students focus on high school and college and beyond. At an age where everything is about the present moment, this fun publication helps bring reality to the fact that they must start thinking about the need for a good education to reach goals in their lives.
—Tish Scott, Wilson Technical Community College, NC
